Extended hours coming for iXpress

Published on May 08, 2008

Regional council has approved a plan that calls for expanded hours of the iXpress bus service.

At its regular meeting, councillors approved the 2008 transit services improvements plan, including the implementation of 26,000 annual service hours. The plan includes new routes, modification of existing routes, and expanded hours and days of operation on selected routes, including iXpress. The changes aim to improve the directness of travel and service coverage and continue to build ridership in support of future rapid transit.
