

FROM A PARENTS EYES..

Being part of Special Hockey International has been the best experience that our son Christopher has ever experienced. He is very proud of belonging to his team. Christopher and the entire family have experienced un-conditional acceptance and, inclusion from the very beginning. It has been a wonderful opportunity for Rob and I to meet other great families with similar concerns and interests.

The whole hockey and team experience has done wonders for Christopher's self esteem and confidence. His skill level has increased and his enthusiasm is tremendous. First thing Saturday morning the hockey bag comes out and it's "is it time for hockey yet?"

The annual hockey tournament is an amazing experience and the most fun we have had in a long time. The bonds that have been made I do not think will ever be broken
