

Civic Administration Building— (CAB) Project Update

City of Cambridge

Volume 1, Issue 1
March 20, 2006

CAB Construction Scheduled to Begin Shortly.

The new Civic Administration Building will be located within Civic Square, in the heart of the Galt City Centre downtown core area. Civic Square is already home to the award-winning Cambridge Farmers' Market, the Cambridge Centre for the Arts, Historic City Hall, and the David Durward Centre.

When the Civic Admin. Building is complete, the City of Cambridge looks forward to providing citizens and visitors with improved civic facilities that will further enhance the downtown core.

While this project will cause some disruption to existing core area parking, the City of Cambridge will try to help municipal staff, citizens and visitors by communicating where alternative parking is available, and by providing other services.

CAB Project updates will be available throughout the duration of the project to keep you informed.

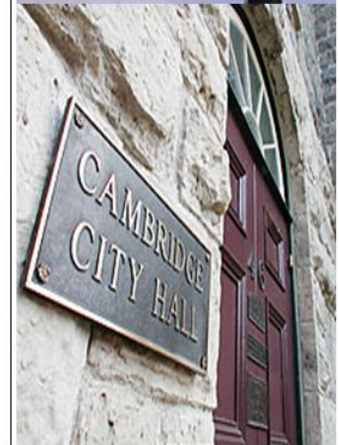

Construction of the new City of Cambridge Civic Admin. Building is set to begin on approximately April 3, 2006. Completion of the new building is anticipated for December 2007.

Residents will soon see construction trailers arriving on site. Vanbots Construction of Markham, Ontario has been hired as the General Contractor for the CAB project, and for the next few weeks they will be preparing the site for construction.

As a result of the upcoming construction, parking in and around the Civic Square site will be impacted. A temporary parking plan will be enacted during construction. Parking arrangements will come into effect on Monday, April 3, 2006, and may be subject to change.

For more info. on the CAB Project contact 740-4681:

Slobodanka Lekic, ext. 4212, or Bob Paul, ext. 4626.

Civic Admin. Building Items of Interest

- Green Wall
- Green Roof
- Operable windows
- Energy Efficient Design
- Public Hall

New Civic Admin. Building to Provide A Healthy Work Environment for City Staff

The new Civic Admin. Building has been designed so that it will provide a healthy work environment for City staff, as well as better service to the public. The new Civic Admin. Building will demonstrate the City's commitment to the environment, while providing a green example for city residents and business owners alike.

The CAB Project has been designed for LEED (Leadership in Energy & Environmental Design). It will receive a green building rating for developing a high performance sustainable building.

Key features include a green wall, green roof, grey water, and complete T-5 lighting system incorporating natural light.
