How can I tell if a course is available or if I have been waitlisted?

When searching for a course, before adding it to your cart, there will either be an "ADD" or "WAITLIST" button. On rare occasions, clients may simultaneously select "ADD" to register for the last available spot for the same course. If this occurs, the unsuccessful client(s) will automatically be waitlisted. When viewing "Shopping Cart," check to see if a course fee appears under the Fee column indicating that you are registered, or if the word Waitlist appears, indicating the course is full and you have been waitlisted.
