

## Fight to end poverty

Published on Oct 21, 2008

The Social Planning Council of Cambridge and North Dumfries is challenging the community to help take up the fight to end poverty.

The council is helping organize an event on Friday that will discuss a new declaration calling for a 25 per cent reduction in poverty in five years. The event, held in the Bowman room at Cambridge City Hall, from 8 to 9:30 a.m., will look at poverty reduction and will feature speaker Peter Clutterbuck of the Social Planning Network of Ontario. Local poverty analysts will also talk about the region's picture of poverty.
