OVERVIEW:

- Each of the parks owned by the City of Cambridge have enough washrooms to accommodate normal use. However, when special events occur in a park, you must rent portable toilets to accommodate the additional number of people. The number of washrooms depends upon the size and nature of your event.

YOUR RESPONSIBILITY:

- Determine how many washrooms to rent by:
 - Counting the number of washrooms that are already located at the park. For a list of available washrooms at each park, please refer to *Extra Information* in this section.
 - Consulting with your Special Events Liaison at the City of Cambridge.
- Ensure that the appropriate number of portable toilets are delivered to the site before the event, maintained throughout the event and picked up from the site after the event.
- Maintenance of portable toilets (including toilet paper) is your responsibility unless a deal for servicing during event is worked out with provider.
 - Inquire about keys to toilet paper racks through provider.

STEPS TO RENTING WASHROOMS FOR YOUR SPECIAL EVENT:

1. Determine how many portable toilets you will need for your special event by contacting your Special Events Liaison. Your Special Events Liaison will contact the Building Department to determine how many portable toilets are needed.
2. Once you have determined how many portable toilets you will need, contact your portable toilets company and rent the appropriate number of portable toilets.

3. Send proof of your portable toilets rental to your Special Events Liaison prior to the event.
