16.0 Other Information

Is there any other information that may be useful to the Region, public bodies or other agencies in reviewing this application (i.e. efforts made to resolve outstanding objections or concerns)? If so, please explain below or attach on a separate sheet.

Completeness of Application

I/we understand that receipt of this application by the City of Cambridge does not guarantee it to be a 'complete' application. Further review of the application will be undertaken and I/we may be contacted to provide additional information and/or resolve any discrepancies or issues with the application as submitted. Once the application is deemed to be fully complete, the application fee will be deposited and the application will be processed.

Reproduction and Distribution of Documents

The applicant/owner grants the City of Cambridge permission to reproduce, in whole or in part, any document submitted as part of a complete application for internal use, inclusion in staff reports or distribution to the public either online or through other means (such as email) for the purpose of application review.

If the applicant believes there may be a security risk by allowing the public to view any portion of their submission, they must provide documentation to support their concerns and indicate the sensitive documents. The Deputy City Manager of Community Development (or designate) will consider any concerns and may agree to restrict reproduction of applicable documents for internal use or public distribution.

Acknowledgement and Permission to Enter Property

Submission of this application constitutes consent for authorized staff and committee members of the Corporation of the City of Cambridge to enter upon the subject land and premises during normal business hours for the purpose of conducting site visits, including photographs, which are necessary for evaluating the merits of this application. Should there be a need for the accompanying of staff or a committee member on a site inspection due to the operations of the business (security/health and safety), please confirm this by checking the box below and indicating who to arrange a site visit with.

- City Staff and committee members are permitted to enter the property.
- Due to security/health and safety reasons City Staff and/or Committee members will need to be accompanied while on site by trained personnel. To schedule a site visit please contact the agent.

CONTAMINATED SITES SCREENING QUESTIONNAIRE

City of Cambridge Procedure for Contaminated Sites Redevelopment 2009
(As per Official Plan Policies)

Does the application propose development on private services (septic system) or redevelopment on a site where private services either are or were used?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Does the application involve lands or is it adjacent to lands where there is reason to believe that the lands may be contaminated due to historical land use?*	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Please specify: _____	
Does the application involve land or is it adjacent to lands where private or regional land filling has occurred?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Is the nearest boundary line of the application within 500m of the nearest boundary line of an operational/non-operational public or private landfill or dump?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Are you aware of any underground storage tanks and/or buried waste on the property?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Has an Environmental Site Assessment/Record of site condition been prepared for the site?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

*Possible offending uses can include: disposal of waste materials; raw material storage; residues left in containers; maintenance activities and spills; and/or application of fertilizers. Some commercial properties such as gasoline stations, automotive repair garages, and dry cleaning plants have similar potential. The longer a property is under industrial or similar use, the greater the potential for site contamination. Also, a series of different industrial or like uses upon a site could potentially increase the number of chemicals which are present.

Note: Procedure adopted by Cambridge City Council require the owner to certify that the site meets the criteria of the Provincial Brownfields Regulation for the proposed use before the application is accepted for processing and further the application will not receive final approval or may include holding provisions requiring a Record of Site Condition and additional application to remove the holding.

To the best of my knowledge, there are no other reasons to believe that the site is contaminated.
