

August 28, 2020

Dear: Resident/Property Owner

**Re: Intermarket Road (City Contract T20-50)  
(Allendale Road to Boychuk Drive)**

The City of Cambridge will be proceeding with the construction of Intermarket Road from Allendale Road to Boychuk Drive. Construction is scheduled to commence August 2020, with a planned completion date in Spring 2021. In addition to the works on Intermarket Road some work will take place on Allendale Road in anticipation and in preparation for the forthcoming Allendale Road Reconstruction project (T20-51). The City has retained MTE Consultants Inc. to provide design and contract administration services for the project and has retained iN4Structure Ltd. as the contractor.

Contract T20-50 includes installation of watermain, storm and sanitary sewer. Surface works will include new concrete curb and gutter, and a new pavement structure. Asphalt multi-use trails will be installed on both sides of the right-of-way. Roundabouts at the intersections of Intermarket Road and Allendale Road and at Intermarket Road and Boychuk Drive will also be constructed. And on Allendale Road new concrete curb and gutters, new pavement structure and storm sewers will be extended west of the new intersection on Allendale Road which is expected to affect access to Allendale Road.

The City of Cambridge requests your cooperation and patience throughout the duration of the construction works. As part of the contract administration services, a construction inspector will be available on site to answer any questions and will be able to communicate any concerns or issues back to the project management team.

If you have any questions or concerns about the reconstruction, please feel free to contact the undersigned.

Sincerely,

**Alex Nichols, P.Eng.**
