

October 19, 2020

Dear: Resident/Property Owner

**Re: Reconstruction of Allendale Road (City Contract T20-51)
(Fountain Street to Future Intermarket Road)**

The City of Cambridge will be proceeding with the reconstruction of Allendale Road from Fountain Street to the Future Intermarket Road. Construction is scheduled to commence on or around October 26, 2020, with a planned completion date in Summer 2021. The majority of the work on Allendale Road will be completed under City Contract T20-51 with some works under Contract T20-50. The City has retained MTE Consultants Inc. to provide design and contract administration services for both contracts and has retained E&E Seegmiller Limited as the contractor for T20-51 and iN4Structure Ltd. for T20-50.

Contract T20-51 includes installation of watermain, storm and sanitary sewer. Surface works will include new concrete curb and gutter, and a new pavement structure. Asphalt multi-use trails will be installed on both sides of the right-of-way. Any areas disturbed by the construction project, such as driveways and grassed areas will be restored to City standards. Under Contract T20-50 a new roundabout at the intersection of Intermarket Road and Allendale Road will be constructed and Allendale Road extending west toward Riverbank Drive will be reconstructed. This work west of the intersection includes new concrete curb and gutters and new pavement structure.

The City of Cambridge requests your cooperation and patience throughout the duration of the construction works. As part of the contract administration services, a construction inspector will be available on site to answer any questions and will be able to communicate any concerns or issues back to the project management team.

If you have any questions or concerns about the reconstruction, please feel free to contact the undersigned.

Sincerely,

Alex Nichols, P.Eng.
