

Cul-de-sac Centre Parking (CCP) Program Rules

The CCP program exempts vehicles from the requirement to park within 15 cm of the curb within the turning circle of a cul-de-sac outside of winter months to create additional on street parking. Parking in the centre of the cul-de-sac is permitted May through November and curbside parking is permitted December through April.

- Only cul-de-sacs with a bulb/turning circle diameter of 22 metres or greater will be considered for the program.
- To allow parking in the centre of a cul-de-sac turning circle curbside parking will be prohibited May through November.
- When parking in the centre of the cul-de-sac is permitted vehicles must be parked a minimum of 6 metres away from the curb to maintain full vehicular access.
- To accommodate snow storage parking in the centre of the cul-de-sac will not be permitted December through April.
- The CCP program only exempts vehicles from the requirement to park within 15 cm of the curb between May 1st and November 30th, all other parking by-laws including the following remain in effect:
 - No parking on-street for more than three continuous hours
 - No parking on-street between 2:30 and 6:00am January 1st to March 15th
 - No parking on-street during a snow event
- Vehicles not parked in compliance with the program can be ticketed

Program Application:

To apply for the CCP program a Residential Parking Program Petition must be submitted that identifies support from at least 51% of property owners in the circulation area comprising of all properties with frontage on the turning circle of the cul-de-sac and the next adjacent properties.
