MTE File No.: C44719-200

IMPORTANT NOTICE

Cambridge West Community – Grand Ridge Estates (300mm dia. Watermain Extension – Freure Drive to Blenheim Road) HOMEOWNER / RESIDENT

Due to additional unforeseen circumstances, there have been further delays with the installation of the new 300mm dia. watermain from existing Blenheim Road to the existing watermain at the intersection of Hardcastle Drive and Freure Drive.

We are working with the contractor on a new construction approach in order to complete the installation of the watermain. The watermain pipe that was running down the centre of Hardcastle Drive has been removed and will be installed from the north side of the tracks based on the new approach. This work will include the installation of a deep receiving shaft (approximately 6m in diameter) in the intersection of Hardcastle Drive and Freure Drive. The intention is to keep the limits of the construction work zone (Hardcastle Drive and Freure Drive) to a minimum. Work is set to resume over the coming weeks, after the holiday break and will continue until the end of March.

Once the watermain has been installed and final connections are made, complete road restoration will follow. The contractor will be responsible for all winter maintenance within the work zone until the work is completed and full road restoration occurs.

We apologize for any inconvenience this may cause and thank you for your co-operation.
