To Property Owners and Residents:

Re: Salisbury Avenue Reconstruction, City of Cambridge (Contract T21-19)

In some locations, home owners installed sprinkler system along the edge of the sidewalk or curb on City's road allowance, which can be an issue when installing new infrastructure. If you have a sprinkler system installed along the edge of the sidewalk or curb, please remove the piping prior to construction as the contractor and city will not be responsible for damages. You may have it reinstalled after construction is completed if you wish.

The City of Cambridge appreciates your cooperation and patience throughout the reconstruction duration. If you have any questions or concerns regarding the reconstruction please feel free to contact the undersigned.

Steven Huang
