

24 Hour Parking Petition

Dear Neighbour,

My name is _____ and I am coordinating a no contact petition for the City's Extended On-Street (PE3) Parking Program for _____ between _____ and _____.

This program allows parking for up to 24 hours year round (except during declared snow events) according to the rules below.

If you are interested in this program please contact me at _____ or _____ with the full name, address and phone number of the primary resident of your home.

Thank you.

As per the City of Cambridge:

"This petition is a pre-screening process requiring (51%) support before a formal questionnaire will be distributed to residents by the Transportation Section. Your participation is not binding. The purpose of obtaining the (51%) support is to confirm the general support for this request prior to a questionnaire being issued. Only one vote from the property management will be accepted for multi-residential properties (e.g. apartments, townhouse complex, etc.). Please note that Staff may randomly contact residents to confirm their support."

Program Rules

- Where the pavement width is less than 10.0 metres a PE3 will only be considered where parking is prohibited on one side.
- All PE3's will be suspended during winter snow events.
- The program operates as a street regulation, permits will not be issued, there is no limitation on parking by non residents.
