Forestry staff strongly promote the selection of Carolinian and other Native species if determined to be suitable for a specific site. The City of Cambridge reserves the right on final approval for all species selections.

The City of Cambridge plants a wide selection of tree species. The list on this sheet contains varieties best suited to grow in urban conditions. Residents are welcome to request a particular variety, but City staff will make the final choice based on tree form, site space, overhead utilities, and the soil types in an area. Tree planting is done in the spring and fall of each year. Spring planting normally occurs in May, and fall planting is normally completed in October. Abnormal weather conditions may adjust these times. Residents will be advised on their inspection notice the season and year that a tree(s) will be planted. The City relies on residents to help with the care of new young trees. A detailed tree care bulletin will be delivered to your door the day the tree is planted. Water it deeply once a week in dry weather. Please use caution when using grass trimmers near the tree. The City appreciates residents help caring for the new trees; however, please do not trim or prune the trees.

F = fall planting                      S = spring planting                      E = fall or spring planting

<p><b>Small trees for small spaces – less than 5m height when mature.</b> Suitable for boulevards &lt;1.5m, under utilities, confined spaces</p>		
E	Amur Maple	small ornamental maple, yellow/red fall colour, compact form, best in acidic soils
E	Tartarian Maple	to Amur maple, with trident shaped foliage, good in calcareous (sweet) soils
E	Serviceberry	native, early spring white flowers, red fall colour, moist well drained soil
F	Ivory Silk Lilac	ivory coloured flowers in June, yellow/brown fall colour, well drained soil
F	Japanese Cherry	early spring pink flowering trees, no fruit, wide range of soils
<p><b>Medium trees – 5-10m height when mature</b></p>		
<p>Suitable for boulevards &gt;1.5m</p>		
E	Hedge Maple	small maple leaves, dark glossy green foliage, yellow fall colour
S	Chanticleer Pear	white flowering in spring, dark yellow/red fall colour
S	Turkish Hazel	small oval leaves, may produce small nuts at maturity
F	Golden Rain Tree	Compact oval crown, chains of yellow flowers mid-summer, orange-yellow fall colour

## TREE PLANTING VARIETIES

### Large Trees – greater than 10m when mature

Suitable for very large boulevards and lawns

E	Thornless Honeylocust	feathery foliage, thornless, yellow fall colour, good in calcareous (sweet) soils
E	Hackberry	native, elm like leaves, immune to Dutch elm disease, wide range of soils, drought tolerant
E	Silver Linden	heart-shaped leaf, yellow fall colour, good in calcareous (sweet) soils
E	London Plane Tree	interesting mottled bark when mature, yellow/brown fall colour
E	Ginkgo	disease resistant, yellow fall colour, soil variable, drought tolerant
S	Red Oak	native, fast growing oak, red fall colour, sand loam soil
S	Bur Oak	native, red fall colour, soil variable
S	Swamp White Oak	native, red fall colour, soil variable
E	Kentucky Coffee Tree	native, very open branching, bluish-green foliage, yellow fall colour
E	Sugar Maple	native, yellow/orange fall colour, well drained soil
F	Native Red Maple	native, yellow/red fall colour
S	Native Tulip Tree – spring planting only	native, glossy leaf, yellow fall colour, tulip-shaped flowers of green/yellow/orange in May, loose well drained soil
E	Japanese Zelkova	Vase-shaped crown, similar to an elm. Yellow fall colour
S	Japanese Katsura Tree	Small oval leaves, scented flowers mid summer, yellow/pink/orange/red fall colour

### Large Trees with Narrow crowns – greater than 10m when mature, but less than 5m wide

Suitable for areas with large soil volume, but restricted overhead space

E	Columnar Norway Maple	Non-native with very narrow crown, typical maple leaf, yellow-brown fall colour
S	Columnar English Oak	Glossy dark green foliage, brown fall colour – leaves stay on all winter
E	Princeton Sentry Ginkgo	Male clone (no fruit), very narrow crown – brilliant yellow fall colour

Personal information contained on this form is collected pursuant to the Municipal Act and will be used for the purposes of administering the City's forestry tree planting program. Questions about the collection of personal information should be directed to the City's Freedom of Information and Privacy Coordinator in the Public Access and Council Services Department at 519.740.4680 ext. 4079.
