Michael A. Di Lullo
City Clerk/Returning Officer

1. OVERVIEW

The *Municipal Elections Act*, 1996, gives authority to the City Clerk, as Returning Officer, to establish procedures and forms for voting and vote-counting equipment within the municipality. In the 2018 municipal election, there are new rules for third party advertising.

Third party advertising refers to advertisements or other materials that support, promote or oppose a candidate, or support, promote or oppose a "yes" or "no" answer to a question on the ballot. Third party advertising is separate from any candidate's campaign, and must be done independently from a candidate.

Third party advertisers involved in the Cambridge municipal election must register at the Clerk's office between May 1, 2018 and October 22, 2018.

Further information can be found in the City of Cambridge's Guide and Information for Third Party Advertisers.

5. ELECTION METHOD FOR 2018

Automatic Vote Tabulators

The Council of the Corporation of the City of Cambridge passed By-Law No. 63-17 authorizing the use of automatic vote tabulators. After the voting places close at 8:00 p.m., the tabulators produce the results automatically, print a record of the results (similar to a cash register tape) and save the results on a memory card. The printed records and memory cards are delivered to City Hall on election night, where the stored information is downloaded to a computer for tabulation of results from all voting places.

Internet Voting

In addition to vote tabulators, the City is also utilizing internet voting as per By-Law 162-17. Internet voter registration will begin on October 9, 2018 at 10:00 a.m. and will end on October 22, 2018 at 7:59 p.m., offering a two-week window (approximate) for voters to vote.

Advance Voting

There will be four advance voting periods, which are outlined below:

- October 3 and October 10, 2018 between the hours of 4:00 p.m. and 8:00 p.m. at Cambridge City Hall (Bowman Room); and
- October 6 and October 13, 2018 between the hours of 10:00 a.m. and 6:00 p.m. at the Hespeler Arena and Preston Auditorium, and between the hours of 9:00 a.m. and 5:00 p.m. at Cambridge City Hall (Bowman Room).

As per By-Law 162-17, advance voting periods will allow for voters to place their vote using the tabulators, which will then be stored and downloaded to a secured computer for tabulation of results.

Further details on advance voting can be found in Section 14.

6. VOTERS' LIST

The City utilizes a software program to manage the voters' list. The data is received by the Municipal Property Assessment Corporation (MPAC), who is responsible for the enumeration of voter information.

There will be no paper voters' lists utilized in the election; instead, the voters' list program will be utilized whereby there will be live strike-off of voters who choose to vote during the election.

When a registered voter votes on-line, the voter's name is flagged on the voters' list as "voted". A list of advance voters including internet voters will be produced and made available for all candidates throughout the advance voting period.

The voters' list may be inspected at the Clerk's Office. No person shall use the information obtained from the voters' list except for election purposes. The use or sale of the list for commercial purposes is prohibited.

Candidate Access to the Voters' List

The voters' list, based on the data collected by the Municipal Property Assessment Corporation (MPAC), is available to candidates on or after September 4, 2018. Candidates will be provided with one electronic copy of the voters' list at no charge.

Interim Changes for Voters' List

On or before Tuesday, September 25, 2018, the Clerk will provide to candidates an interim change to the voters' list, which will include all additions and revisions to the list received.

Unconfirmed Citizenship – Oral Oath

For 2018, the Municipal Property Assessment Corporation (MPAC), which provides the voters' list, has added an "unconfirmed" citizenship indicator ("U") to the voters' list to indicate individuals for whom MPAC has not been able to confirm Canadian citizenship. In order to obtain a ballot, those individuals will be required to swear or affirm an oral oath at the voting place as follows:

"I, [name of voter] being a voter entitled to vote in the City of Cambridge, SWEAR OR SOLEMNLY AFFIRM that I am a Canadian citizen."

Any such individual, identified by a "U" for unconfirmed citizenship on the voters' list, who refuses to swear or affirm his or her Canadian citizenship **will be deemed ineligible to vote and will not receive a ballot.**

The names of those individuals swearing or affirming an oral oath of citizenship, or refusing to swear or affirm an oral oath of citizenship, will be forwarded to MPAC after the election to permit MPAC to revise the data relating to those voters.

7. ADDITIONS AND AMENDMENTS TO THE VOTERS' LIST

Appropriate social media will be used including advertisements which are periodically placed in the Cambridge Times to advise voters that the voters' list is available for inspection in the Clerk's Office and that the necessary forms for additions or amendments are available through the Clerk's Office. Persons who are not on the voters' list may complete a form at City Hall to have their names added to the list.

Form – Application to Amend Voters' List (Form EL15)

Revision Period: September 4 to September 14, 2018

Persons who complete the appropriate form on or before September 14, 2018, will be added to the interim changes to the voters' list and will receive a Voter Notification form in the mail, advising them of the location of their voting place. This period may apply for changes and/or corrections to another name.

Revision Period: September 15 to October 22, 2018

Persons who complete the appropriate form after September 14, 2018, will be provided with a Clerk's Certificate to be presented at the voting place. A person who presents a Clerk's Certificate signed by the Clerk or designate is entitled to vote in accordance with the information contained therein. This period applies for changes and/or corrections to own name only.

Additions/Revisions at the Voting Place – Advance Polls and/or Election Day

A person who presents him/herself to be a voter, who applies at the voting place for a ballot, who does not have a Clerk's Certificate signed by the Clerk and whose name does not appear on the voters' list is entitled to vote if he/she establishes his or her identity to the satisfaction of the Deputy Returning Officer and completes and signs an Application to Amend Voters' List.

Form – Application to Amend Voters' List (Form EL15)

8. ADVERTISING & NOTICES

All advertisements relating to notices or information required pursuant to the Municipal Elections Act will be published in the Cambridge Times and on the City website.

<https://www.cambridge.ca/en/your-city/election-2018.aspx>

Supplementary advertisements may be published in the Kitchener Record or surrounding newspapers at the discretion of the Clerk.

The Clerk shall determine the date(s) of all advertisements including in which newspaper(s) the notices are to appear in order to comply with the requirements and principles of the *Municipal Elections Act*, 1996.

The City will also utilize a variety of social media tools to publicize and promote the municipal election.

Each person on the voters' list shall be mailed by "first-class" mail a sealed Voter Information Letter containing:

- (a) His or her Voter Identification Number and password and the website address to cast his or her vote;
- (b) Instructions on how to vote;
- (c) Hours of voting;
- (d) The location of the revision centre; and
- (e) The location and telephone number of the help centre.

The voter notification form will offer a choice for voters who can either register to vote using the internet or advising of the location of his or her voting place on Voting Day (October 22, 2018).

Voters who have had their names added to the list or who change their qualifying address after September 14, 2018 will be advised where to vote at the time of their application for revision or may call the Clerk's Office for information. Voters can always use the Internet Voter Lookup to see if they are on the City of Cambridge Voters' List.

Printed copies of the unofficial results will be available to candidates, members of the media and the public on an ongoing basis. Final unofficial results will be made available when all the necessary information has been received and verified.

The City Clerk will make an official declaration of election results as soon as possible after Election Day.

26. RECOUNTS

As per the *Municipal Election Act*, if a recount of votes is held, the votes shall be counted in the same manner as the votes were counted on Election Day.

The vote tabulators/compact memory cards are programmed such that only the race(s) to be recounted will be tabulated in accordance with Section 56 of the *Municipal Elections Act* if there is a tie vote.

A vote tabulator shall be tested before the recount in the manner described previously in this procedural guide.

Pursuant to Subsection 56(2) of the *Municipal Elections Act*, the recount shall be held within fifteen (15) days after the Clerk's declaration of the results of the election, and therefore the recount shall occur on Monday, November 12, 2018 at the hour of 10:00 a.m. or prior to, as declared by the City Clerk.

In addition to such staff as designated by the City Clerk to conduct the recount, the following persons may be present to observe the recount process:

- (a) Candidates for the offices of the recount;
- (b) The City Clerk;
- (c) For each candidate, a lawyer and one scrutineer for each recount station established.

Only those vote tabulators that were used in wards at the advance votes and on Election Day will be used to tabulate the results of the recount as follows:

- a) A memory card will be inserted into each vote tabulator unit for the poll/polls prior to the day of recount.
- b) At the recount, a zero tape will be generated to ensure that no votes are recorded for any candidate.
- c) After each tabulator has completed the processing of ballots, a results tape will be generated.
- d) Statistics on the results tape relating to offices that are not subject to the recount will be severed by City staff.
- e) To obtain the final election results, the memory cards will be removed from the tabulators by City staff and inserted into the memory card reader for upload into the election system software.

- f) City staff will replace each memory card in its respective tabulator, and re-package and seal the tabulator.
- g) Recounts for data-based alternative voting methods including internet will be conducted in the same manner as the tabulation undertaken on Voting Day, with the necessary adjustments for the scope of the recount.

The recount staff will process ballots and tabulate the results as follows:

- a) City staff will be assigned to process ballots.
- b) The ballots will be processed through the same vote tabulators that were used at the advance votes and on Election Day for the Ward(s) in the recount.
- c) Ballot transfer cases will be opened by breaking the seals one box at a time for each vote tabulator in use. Subsequent ballot transfer cases will be opened in the same manner only after the preceding ballots have been processed and the ballots returned to and sealed inside their original ballot transfer case.
- d) Ballots will be inserted into the vote tabulators face down. Candidates and other observers present during the audit will not be permitted to examine ballots as they are processed through the vote tabulators, and will not be permitted to dispute the validity of any ballot or how the votes on any ballot are counted by the tabulators.
- e) In the event of a ballot that is torn or otherwise not accepted by a vote tabulator, and in the opinion of the City Clerk cannot properly be processed by the vote tabulator at the recount, a replacement ballot shall be prepared by marking a new ballot only with the marks contained in the designated voting spaces on the original used ballot, and the replacement ballot shall be clearly labelled "replacement" and given a serial number which shall also be recorded on the original used ballot. The ballot will then be processed through the vote tabulator and accounted for.
- f) If a used ballot was rejected by the tabulator because there were no votes in any of the spaces designated, the ballot shall be returned for processing the above (e).

At the conclusion of the recount, the City Clerk will announce the results of the recount. A copy of the final recount report will be provided to each candidate present at the recount. A copy of the final recount report will be provided to any candidate who was not present for the recount. At the conclusion of the recount, the City Clerk will announce the results of the recount.

27. CORRUPT ELECTION PRACTICES

Sections 89 and 90 of the Municipal Elections Act provide for penalties and enforcement of corrupt practices and other offences during an election process. Although the municipality will be using alternative-voting method, being internet voting, the principles and the integrity of the election process will remain and are enforceable.

Section 89 of the Municipal Elections Act provides for penalties and enforcement of corrupt practices and other offences during an election process. These include a person who:

- Votes without being entitled to do so
- Votes more times than the Act allows
- Induces or procures a person to vote when that person is not entitled to do so
- Before or during an election, publishes a false statement of a candidate's withdrawal
- Furnishes false or misleading information to a person whom the Act authorizes to obtain information
- Without authority, supplies a PIN/ballot to anyone
- Deals with a PIN/ballot, without having authority to do so
- Attempts to do something described above

No person(s) shall solicit a voter information letter, containing a PIN, from an eligible voter. All valid complaints or knowledge of solicitation shall be reported immediately to the police for investigation of corrupt practices.

In addition, under the provisions of Section 90(1) of the Municipal Elections Act, if a person is convicted of an offence and the offence was committed knowingly, the offence constitutes a corrupt practice.

Although many provisions of the Municipal Elections Act also deal with voting places, ballots and ballot boxes, etc., the same must be used interchangeably with the "alternative form" of voting since the principle of the Act must be maintained and is therefore enforceable and subject to penalties.

An individual who is convicted of an offence is liable to penalties that include but are not limited to a maximum fine of \$25,000 and or a maximum imprisonment of six (6) months.

Notification of the voting process and how voters can access the voting system will be provided in the Voter Information Letter and will be provided to voters by first class mail. The Criminal Code of Canada states that tampering with the mail of an individual is a criminal offence and a person(s) found guilty is liable to a term of imprisonment not exceeding ten (10) years. As such, in order to ensure the integrity and confidence of the voting process for all voters and the candidates, the Clerk in this alternative form of voting has agreed that all complaints and actions which may contravene the provisions of the Criminal Code of Canada with respect to mail tampering, either verbally or written will be reported to the police.

28. EMERGENCIES

The Clerk may declare an emergency if in his/her opinion circumstances have arisen that are likely to prevent the election being conducted in accordance with the Municipal Elections Act.

On declaring an emergency, the Clerk shall make such arrangements he/she considers advisable/necessary for the conduct of the election. The arrangements made by the Clerk, if they are consistent with the principles of this Act, prevail over anything in this Act and the regulations made under it.

The emergency continues until the Clerk declares that it has ended.

If made in good faith, the Clerk's declaration of emergency and arrangement shall not be reviewed or set aside on account of unreasonableness or supposed unreasonableness.

It shall be the policy that in the event of an emergency, as determined by the Clerk, that the Clerk shall to the best of his/her ability advertise such emergency.

If required, the Clerk may consider alternate options for the following:

- Reporting result
- Notification of voters

- Voting period (delay of Voting Day, extension of voting hours or days(s))
- Alternate voting place or alternate facility

If voting for an office is not completed in accordance with the rules and procedures, the Clerk shall not release the results until the voting for that office is completed.

In the event of an emergency, the provider of the internet voting services will take direction from the Clerk as to what actions will be taken, shall stop the internet voting system from accepting connections from the internet, thus preventing the election from continuing, or starting, as the case may be.

29. AFTER VOTING DAY

At no time after voting day shall the EID Identification (Reference) Numbers and Voter Identification Numbers come together to allow anyone to know how a voter has voted.

All election materials shall be destroyed in accordance with the principles of Section 88 of the *Municipal Election Act*, 1996.
