

2018 Municipal Election October 22, 2018

There will be a Question on your Ballot

Vote 'yes' or 'no' on the use of a ranked ballot system for the 2022 municipal election.

What is Ranked Ballot Voting?

With ranked ballots, rather than just choosing one candidate, voters rank the candidates according to their preference. If no candidate receives a majority of the votes, the contender with the fewest votes is dropped from the ballot and his or her supporters' second choices are counted. That continues until one candidate emerges with a majority.
